To whom it may concern,

My name is Sohee Maeng.

I am sending you my resume along with this cover letter so you can know a little about me and my experiences. I appreciate you taking the time to review my resume.

I am currently working in the United States with an HB-1 visa as a graphic designer at a Korean newspaper. I am interested in the position for a Graphic Designer that your company has a current need for.

Ever since I was a child my parents always told me that whatever I say and whatever I do I should never disgrace my family. I've always put my name on the line to do the best I can in all situations to honor the words my parents have instilled in me at a very young age.

When I was in college, I wanted to experience various things other than studying. I learned and explored society through part-time jobs in a variety of service industry employment opportunities. In one instance I worked as barista and with my dedication and hard work ethic I eventually became the store manager. I feel that when I put my mind to do something I can do anything even when faced with an unexpected problem I can find a way to handle it and resolve it responsibly.

When I do Graphic Design work I feel that my strengths are the unique ideas I have and my attention to detail. When I first learned how to design a newspaper page, the newspaper became my passion and I would go to extra lengths to make sure everything was correct while still maintaining the deadline required. When I decided to expand my knowledge I became a UI/UX designer. Pinterest has become a place for me to express my work and has been a great place for me to learn about what's trending now and discover new and sensuous designs, in a variety of platforms.

My strengths I feel will help increase your company's graphic design capabilities. When a project is given to me I set a goal of how long it should take and do my best to reach that goal. I feel it's a big problem if I don't meet my daily work or quota. To overcome this, when I have free time I continue to increase my knowledge to help me do my job. I always try to think positively about designing and keep a clear mind so that my efforts are reflected in my work. I will work on a project until it is completed and you are satisfied with the work I have done.

Enclosed is my resume for your review. I am currently studying the English language to better my communication skills. With that said I believe I can make a valuable contribution to your company's design team. I have a lot of knowledge and confidence in my work and work ethic. Furthermore, my diverse knowledge may enable your company to play an important role in expressing graphics. I am very confident in my graphic design abilities.

I welcome the opportunity to discuss with you personally how my skills and strengths can best serve your company. I appreciate your time and consideration.

Sincerely,

SoHee Maeng.
